

Aspen Snow and Ice Melter

Get a Mountain of Safety and Performance.

Aspen's premium blend of sodium and magnesium chloride delivers the power you need to battle even the harshest storms. Melting down below -7°F/-21°C, Aspen also contains patented inhibitors designed to reduce damage to metal, concrete and the environment.

The perfect formula for ice-melting success.

KEY FEATURES	BENEFITS
Synergistic blend of magnesium chloride & sodium chloride	Melts ice down to -7°F/-21°C
	Formulated for high performance ice melting
	Won't harm pets when applied as directed
Patented inhibitors	Safe on cured concrete when applied as directed
	Less corrosive to metal
	Environmentally safe
Doesn't require gloves or goggles	Safe to handle, won't harm skin when used as directed
