

FreezGard® -

Delivering an Unequaled Combination of Power and Safety

FreezGard's 100% Magnesium Chloride crystals deliver extreme performance - melting ice and snow down to -25°F/-32°C.

The unique crystal shape works on contact to penetrate ice and snow faster than other conventional ice melters on the market. Plus, FreezGard is safer than Calcium Chloride on vegetation, concrete, metal, people and pets.

FREEZGARD
Mag Chloride Ice Melter Crystals

Stronger. Tougher. Safer.

KEY FEATURES	BENEFITS
100% magnesium chloride hexahydrate	Melts more ice and snow at lower temperatures
	Melts ice down to -25°F/-32°C*
	Safer on concrete and metal than other conventional ice melters when used as directed
	Safe for animals, won't harm their paws
	Safe on vegetation when used as directed
	Less toxic than baking soda
Unique crystal shape	Optimum combination of rapid ice penetration and scatter control
	Dissolves quickly for the fastest melting action
	Won't roll away like pellets, or blow away like flakes
	Penetrates ice faster than flakes
Doesn't require gloves or goggles	Safe to handle; won't burn skin when used as directed

*Eutectic Temperature
