

Grow Rite

Pellets

100% Organic Compost

Soil Supplement

Indoor and outdoor use

Flowers, plants, lawn, and garden

Pasteurized — No weed seeds

Pet friendly, environmentally friendly

Instructions: *GrowRite Pellets* are safe and easy to use. Spread pellets evenly on top of soil or mix with soil for planting. Apply *GrowRite Pellets* twice a year—once in the spring and once in the the fall. Water plants and lawn as normal.

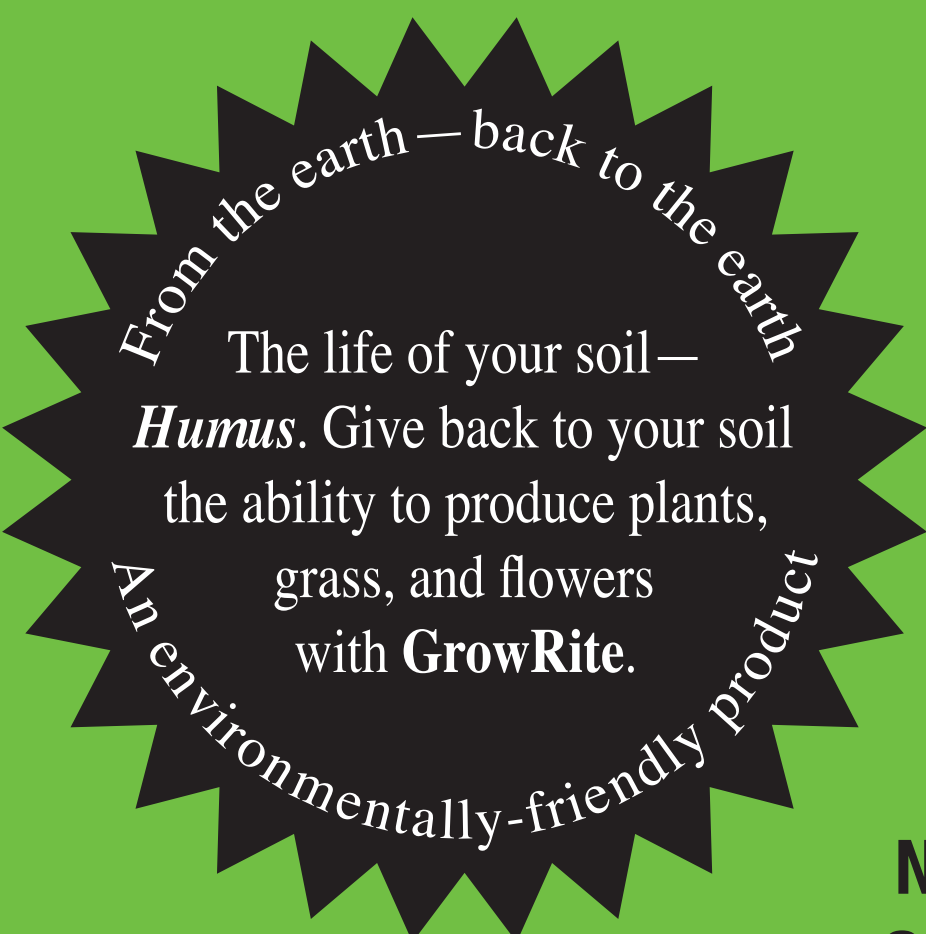

Recommended Usage:

Application	Amount
Lawn	10 lbs per 500 sq ft
New garden	50/50 pellet and soil mix
Existing garden	5 lb. per 20 sq ft
Potted plants	50/50 pellet and soil mix
New trees & shrubs	10 lb. per planting
Existing trees & shrubs	5 lb per planting

GrowRite Pellets will not burn plants, flowers, or grass like many fertilizers can. *GrowRite Pellets* replenish the natural life to your soil, enabling it to produce better growth of plants, flowers and lawns—the way Mother Nature intended.

From the earth—back to the earth.

GrowRite Pellets are made from 100% organic compost, making it very eco-friendly. No additives—just simple organic matter, decayed naturally creating humus, which is important to your soil. Help your soil retain moisture, loosen it for better aeration and drainage, and encourage the growth of soil organisms, which help make nutrients available to plants by using *GrowRite Pellets*.
