

Polar Strength Melt Away

Calcium Chloride Blend

Polar Strength Melt Away is a premium product suitable for roads, sidewalks, parking lots, driveways, and other deicing applications. Polar Strength Melt Away contains a blend of calcium chloride, potassium chloride & sodium chloride. The product is fast acting with a low melting point.

For melting power at lower temperatures.

KEY FEATURES	BENEFITS
Calcium chloride	Melts ice down to -10°F
	When converted into a liquid, it gives off heat to help sodium and potassium chloride to work.
Potassium chloride	Safer on cured concrete when applied as directed
	Less corrosive to metal
	Environmentally safe
